7%

With Rx Concierge

Rx Concierge helped groups enhance overall pharmacy cost control in 2024 — **bending the trend by almost 50%*** for clients enrolled in the program.

Groups not enrolled spent 6% more on pharmacy overall.

Clients enrolled in Rx Concierge saved **over \$17 million** in 2024 without any disruption to members using our unique clinician-to-clinician approach.

Our pharmacists identified over \$9 million of savings for our clients in just two of our high-spend therapeutic drug classes: Mental Health/ADHD and Diabetes.

Groups not enrolled in Rx Concierge spent **12% more** on mental health medications and **5% more** on diabetic medications.

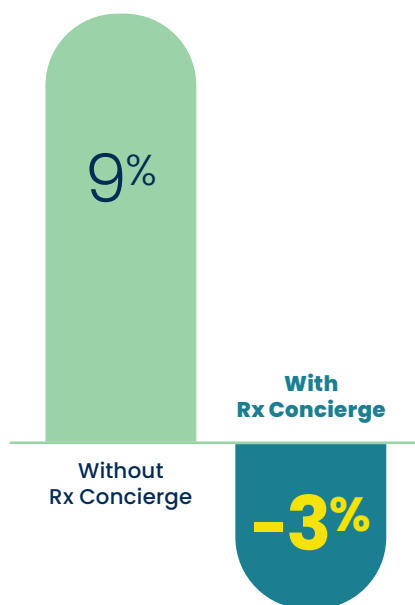

\$5.8M in savings

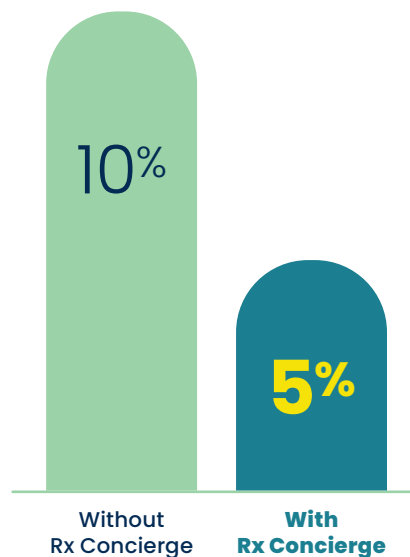

\$3.3M in savings

Mental Health/ADHD cost growth

Diabetes cost growth

Rx Concierge guarantees savings year over year, which explains our **99% retention rate for eligible groups**. In fact, most of our groups are achieving savings beyond their guarantee.
